Has this duty the Municipality undertaken to maintain schools for primary education? If so, what is the number of such schools? Please furnish me with the information at your earliest convenience.

Yes as a matter of accounts the Municipality maintains the Bangalore City Municipal schools for boys and girls. Nor from State Funds.

There is no order to the effect that all primary boys schools in Bangalore should be maintained from Municipal Funds and those for girls from State Funds nor it is observed as a rule. The Bangalore Municipality maintains only the Bangalore city Municipal anglo English and Kannada schools. All other schools are maintained by Govt from the Provincial Funds. The following are the only examples where Vernacular schools for boys are maintained from Provincial Funds -

Hindustani boys school Bangalore
—— Do —— Sarar lines Bangalore
—— Do —— Barr lines Bangalore
—— Do —— Laramandal Pett, Bangalore
Kannada boys school Sarar lines Bangalore

Besides these there are other institutions which are aided from Provincial Funds.

OFFICE OF THE INSPECTOR GENERAL OF EDUCATION
IN MYSORE

Mysore 2 June 1897

My dear Mr Srinivasaiyar

Your letter of the 1st instant about the Chamaraj endowments which reached me this morning. On referring to the file of papers relating to the schools you may imagine my astonishment at finding that the Office had not carried out my orders noted on the Govt Proceedings No 7931-3 of the Ed 264

Proceedings to the Office In
this case I did the same
Thing the very day I received
Order No 7931-3, that is
on the 15th Jan' 97 I told
the Office to inform the Deputy
Commissioner of Bangalore
that Government would not
be able to take up the whole

cost of the girls' school buildings
per a grant of Rs 20 if the
Managers would spend a
similar amount of their own.
I also ordered at the same
time the Deputy-Inspector
of Schools to ascertain from
the managers if they were
prepared to spend Rs 20
& to inform the managers
that if they were so pre-
pared Government would
pay them Rs 20 a month.
Both these orders were not
carried out by the Office,
& this mistake I discovered

only today on the receipt of
your Do of the 1st Instant I
am very sorry for the stupid

have severely reprimanded
the writers concerned, &

I shall send you
an official report on a
state of the schools known
the problem has become
more complicated by the
establishment of a 10 me
girls' school in the same
grete I found only 22
girls in the private schools
but about 70 in the Wes-
leyan Mission School on the
20th April. The Museum has
applied for a grant After
inspecting the schools I wrote
a DO letter to Mr S Gubbaduco

to ask his opinion of he & the other managers would agree to own up this girls' school, as the Mission school had already 78 girls on the roll & there school had been going down. Instead of replying to my D.O. letter he calls a public meeting of the people of Channapatna, publishes my letter, & gets the

The D.G. has not stated his own opinion as to the extent of and which Govt may offer. However, from the endorsement of the letter, it seems to be the common opinion of the inhabitants, visitors & Dy Inspectors of Schools that the two institutions are doing very good work and must be taken under Govt management. The no. of boys is about the more than 60, and of Girls 90, and the estimated extra cost Rs 40 & Rs 38 respectively per month. The Head Master of the Municipality who was asked whether the Board would maintain a Boys School, is stated not to have replied. May we call him to furnish the views of the Board, and the D.G. to submit his own opinion?

SIR,

I have the honour to enclose herewith a petition dated 12 August 1896 from the inhabitants of Chamrajpete Bangalore bearing Register No $\frac{2047}{404}$ of the 13th August 1896 of this office in which they ask that Government may take over two schools which they have opened in the newly formed pete, one for boys and the other for girls. The President of the Municipal Board was asked in this office letter No $\frac{1971}{822}$ of 16 June 1896 whether the Board would establish and maintain a Boys school for Chamarajpete. No reply has been received from him. Two reports of the Deputy Inspector of Schools,

not found in the file 446

Bangalore; dated 9th June and 27 August 1896 on the two newly formed schools are herewith enclosed The Boys school is expected for the present to cost Rs 40 a month, and the Girls' School, Rs 38 a month There is no provision in the Educational Budget for either of these schools I request Government will be good enough to pass orders on the enclosed petition The enclosures of this letter may be kindly returned when done with.

Forwarding an application from the Rev J A Vanes for a grant-in-aid of the Wm Kannada Girls School in Chamarajendra Pete, Bangalore and an application from Mr S Subba Rao, Advocate requesting that both the boys and girls' school in the same pettah may be taken over by Govt, with the o[illegible]

Sub-division of the reference to Sett[illegible]

Let us have a copy of the letter from the Rev J A Vanes dated 14/5/97

The schools started by the residents of Chamarajpet seem to have suffered from want of support. In the interests of the Education of that important locality, the Boys' school may be turned into a Normal Branch school and the Girls school into a Govt institution. The people are not likely to contribute. The Rs 40 asked for by the Rev Vanes seem too large for the Boys' school & Rs 20 from Local funds & Provincial funds for the Girls' school, seem reasonable.

The Anglo Vernacular school was started only 2 or 3 months ago. It seems therefore too soon now to say how it deserves to be treated.

Secretary to the Govt of Mysore
Education Department

To

The Secretary to the Government
of Mysore in the General and Revenue
Departments

SIR

I have the honour to forward for your perusal and kind return an application from the Rev J A Vanes dated 5th April 1897 and bearing this Office Reg No 11347 for a grant-in-aid of the Wesleyan Mission Kannada Girls' School opened in March 1897 in Chamarajendrapete Bangalore, also an application from Mr S Subbarao advocate residing in Chamarajendrapete dated 6th April 1897 and bearing this office Reg No 11439, in which he requests that Government may be pleased to take over the management of both the boys' and the girls' School in Chamarajendrapete, and estimates the cost of maintaining them at Rs 85 and 80 respectively.

2 By order No 7931-3 / Ed 264 dated 14th January 1897 Government have decided that as the Boys' school receives a grant of Rs 40 from the Municipality no Government aid is called for in the,

case of that school. For the Girls' school Government have declared their willingness to pay a grant of Rs 20 if the people would undertake to contribute a similar sum My office was directed to inform the managers of the aided Boys' School and the Unaided Girls' School in Chamarajendrapete of the contents of the above order, but I greatly regret to state that by an inadvertence the office failed to do so until the omission was discovered yesterday.

3 I visited the two schools on the 24th April last and found the numbers on the rolls of the Boys' school as follow. II Standard 20, I 18, Infant A 16, and Infant B 23 The total number on the rolls was 77. The numbers present on that day were II 12, I 12, Infant A 11, and Infant B 16, forming a total of 51 boys In the Girls' School there were only two classes. Infant A with 24 girls on the roll and the I class with 28 girls on the roll, of whom only 12 and 10 were present respectively on the day of my visit. The numbers present at my visit may be taken to be the average numbers present daily. I discovered two irregularities in the schools English was taught in the Boys' school in the I and II

classes against the orders of Government merely with a view to induce parents to pay larger fees than they would if Kannada alone was taught. And secondly the grant of Rs 40 paid by the Municipality and sanctioned by Government for the Boys' School alone was spent on both the schools Four teachers are employed in the Boys' school and two in the Girls' School The fees collected in the Boys' School amount to about Rs 12 The whole income of Rs 52 from the grant and fees is thus spent

Rent for both schools - -	Rs 10
3 Servants for - - - -	10-8-0
Contingencies - - - -	1-8-0
The pay of six teachers -	30-0-0
Total	Rs 52-0-0

Mr Subba Rao informed me that hardly any body paid the promised subscriptions and in his letter enclosed herewith he says that not more than a paltry sum of Rs 3 is realised from subscriptions

4 In the Wesleyan Mission Girls' School I found 78 girls on the roll The school was opened in March 1897 with 62 girls.

The number on the roll on the 24th April was thus divided II Class 5, I 15, Infant A 58. Nine girls are said to have come from the Siddi- atta Wesleyan Mission Girls' School, and of the total number on the roll 15 were Brahmin girls The classes appeared to be well attended, but the accommodation provided for them in two shop rooms was bad and there was little or no fur- niture The present cost of establishment is Rs 28

5 I am of opinion that the grant of Rs 40 by the Municipality together with the fee collections at the prescribed rates for Kannada classes is amply sufficient for the Boys' School. An establishment some what like the following may be maintained

Headmaster class II - -	Rs 10
class I - -	7
Infant B - -	7
Infant A - -	5
Pen - - -	5
Rent - - -	8
Contingencies - - -	1
Total	Rs 43

I should like that the Boys' School should be made a Municipal Kannada Branch School to feed the Municipal English School in the city the fees being paid into the Municipal Treasury. The net cost to the Municipality will not be more than Rs 40 a month Boys who pass the II Kannada Standard can easily walk to the Municipal English School in the city for receiving further education The Branch school may be placed under the control of the same Committee that manages the English school

6 The feeling of the people of Chamarajendrapete seems to be very strong against the mission Girls' School But since it is likely to be maintained permanently I would as a tentative measure recommend that a grant of Rs 15 a month may be paid to it for the period of a year or two from Provincial Funds Government have already expressed their willingness to give to the private Girls' school a grant-in-aid of Rs 20 if the managers contribute an equal amount. If

6

Government are so pleased a Government Girls' School may be established in Chamarajendrapete at a monthly cost of Rs 35

Sir, I have the honour to ask that a grant-in-aid may be made to a Kanarese Girls School, which I have just started in the Western Extension of Bangalore. So many of the girls reading in our Siddakatte School have gone to reside in that part that it has been necessary for us to commence a School in the Western Extension in order to preserve the Continuity of our work. Although it has been opened only six weeks there are 60 names on the Roll, and there is every probability of a rapid increase.

Chamrajendrapet, Bangalore
6th April 1897

A J Bhabha Esquire M.A
Inspector General of Education
in Mysore.

Sir, I beg leave to bring to your kind recollection that the inhabitants of the Bangalore city Western Extension, now called Chamrajendrapet, submitted no less than two memorials humbly praying for the establishment of a good public School in this locality for the primary education of their children of both Sexes. The last memorial was respectfully submitted to you on or about the 12th August 1896 although no reply has yet been sent to either of the memorials, yet it is firmly believed that you have been pleased to recognize the necessity for establishing Schools for the benefits of the children of Chamrajendrapet

The two Schools, one for girls and another for little boys, have been in existence for about 12 and 13 months up to the

the end of January last the mother tutions had had no manner of help either from Government or the Municipality

A temporary grant of Rs 40/- a month was lately sanctioned by the Municipality Commencing from the 1st of January 1897.

Having due consideration to the means of a very large portion of the residents, it seems most likely that the Schools may soon come to an untimely end, if their entire management is not taken over by Government or the Municipality. In the Girls' School Department no School fees is paid. The monthly income of the Boys' School may be estimated to be about twelve Rupees Even this Sum of twelve Rupees could not be expected, if instruction is not imparted to such of the boys who wish to be taught English also with Kannada. In the shape of Subscription not more than a paltry Sum of three Rupees is realized

I beg to submit herewith a Statement showing what the probable cost of maintaining the two Schools on a permanent basis, will be, if the Government is gracious enough to take over the management of the Same.

There seems to be at present no hope of permanency of the Schools unless they are made, either entirely Government or Municipal Institutions

24 It will therefore be an act of justice and generosity, if you will be so kind as to confer on the people of this new town the benefits of Education, at least up to a primary Standard.

Begging to be excused for the intrusion

My Dear Sir

I am sorry that the classes in the boys' School department had been discussed when you paid a kind visit to our Institution It would have been more satisfactory, had you had an opportunity of examining our little boys in the lessons which have been taught to them since the opening of the school We close our boys' school on Saturdays at 9 A.M. It may not be now necessary for me to assign reasons for the present strength of the Schools Please permit me to say that the schools must collapse if they are not brought under the direct management of Government There is very little chance of any contribution from the residents, a very few of whom are only able to pay for the schooling of their children Having had to devote a certain amount of my thought and attention

attention for welfare of the institutions since they were started, I shall be extremely sorry if the schools come to grief for want of support I beg to be excused if I venture to say that permanency of the institutions entirely depends on your unbounded sympathy and liberality in the cause of education

Hoping to be pardoned for the intrusion

I am
My Dear Sir
Yours Sincerely

Sessions 46 (2)

His Excellency the Governor in Council
Mysore

The humble memorial of the
Committee of the Chamarajendrapete
Hindu boys and girls schools
Bangalore

Most respectfully sheweth,

1 That the Committee was appointed at a public meeting of the residents of Chamarajendrapete held on Sunday the 9th of March 1879 for the purpose of the Anglo Vernacular school for the management of the boys and girls schools, as will be observed from the proceedings of the public meeting (Vide reference A)

2 That, in accordance with Resolution No 10 of the meeting above referred to, the Committee beg to approach your Excellency in Council with the following representations on behalf of the Hindu Primary girls school now under the management of the Committee

3 That the girls school was started on the 1st May 1879 with 15 pupils. That in June the strength increased to 72, in July to 90, in August to 104, in October to 113 and December to 123. In January, February and March of this year the strength of the school was 111 and 113

4 That the above indicates, remarkable as it may appear, of the interest of the citizens of

thro' many subscribe of the Ryots to the Primary Education of their daughters and sisters as, the Committee venture to think, the natural outcome of the enlightened Educational policy of the Mysore Government, and especially of the solicitude of His Highness the late lamented Maharaja, and His Highness the Maharani Regent, in the promotion of female education

5 That the girls' school (as well as the boys' School) was visited by some of the distinguished Officers of the Government, that in the opinion of Mr Justice Ramachendra Iyer the School supplies a real want that "the boys and girls acquitted themselves in a creditable manner in the examination held by him, "that the teachers are efficient and painstaking" and that considering "the strength of the schools, the population of the new suburb and its distance from the Municipal boys school and Government Girls schools which are situated in the heart of the Pettai" it may be made more efficient and useful if the Government can take over its management," that in the opinion of Mr V P Madhava Rau, Inspector General of Police (the President of the Committee of Her Highness the Mahavarani Girls' school) who examined the girls in Neelachintamani, Geography and Arithmetic, the results were satisfactory, and, that "both the boys and girls schools are a real want in Chamarajpet" that in the opinion of Mr V N Narasimha Iengar, Deputy Commissioner, the parents of the students - boys and girls, belonging to various classes and Communities, take the liveliest interest in the well being of the Schools, that the schools were twice inspected by Mr Venkatapathi Iengar, Deputy Inspector of Schools, that on the second occasion of his visit - a visit paid

under the orders of the Inspector-General of Education on the 27 August, the actual attendance of boys and girls was 80 and 87 respectively, and that in his opinion, the Classification is good and the teaching is effective and efficient; that "studies prescribed for government schools are adopted" that "the School meets a real want and is worthy of being patronized by Government"

6 That while the number of girls attending the School was steadily on the increase, and while the masters were for nearly a year working without any remuneration whatever the hope of them will directed labour being duly appreciated by Government, even a Primary girls school was started in March 1897 by the Wesleyan Mission at Bangalore in Chamarajendrapet, a few doors off the Hindu girls school, and that in the newly started School several of the girls of the Hindu Primary School and one of the teachers were admitted Contrary to the spirit of ~~the~~ inter-school rules, apparently in a spirit of opposition, that in consequence of such a step the strength of this School has at present fallen from 113 to 47

7 That Mr Bhatia, the Inspector General of Education, presumably being favourably disposed towards the newly started rival School, has advised the abolition of the Hindu girls school (Vide para, 6, Enclosure A)

8 That the Committee are most painfully surprised at this attitude of the Inspector General of Education and appeal to Your Excellency in Council for justice

9 That the Committee venture to think that the education of Hindu girls in any school in which any religion, other than Hinduism -

as taught is hardly calculated to prove beneficial in the long run to the Hindu Community

10 That the Hindu Girls' school, having been the first in the field in this new town, deserves the support of the Government and the educational authorities

11 That the reasonableness of the complaint of the Committee will be manifest, if the position is reversed; if for instance the Mission School had been first started and if the Committee had subsequently opened a rival institution and persuaded the pupils and the masters of the Mission School to join it

12 That the Committee beg you to consider what noise will have to be paid in the name of discipline, and whether the Committee cannot expect at the hands of the Educational authorities of the State the same consideration to which any other body may be entitled under the scheme or similar circumstances

That the Committee at the same time are anxious that their action ought to be beyond all possibility of being misconstrued, that, while the Committee are fully alive to the conspicuous place that the Missionary bodies deservedly occupy in the field of Education in India and to the services rendered by them to the Country, the Committees present contention is merely that wherever an indigenous agency in entire accord with the cherished traditions of the Community starts a school, it ought not to be made to abandon it

or Compelled to forgo the legitimate share of encouragement at the hands of Government for the sake of any other agency starting a rival institution, the final aim of which is Conversion of the pupils to another faith

13 That almost every one of the allegations made by the Inspector General in his D O, as grounds to bring about the abolition of the Hindu girls school, is satisfactorily answered by the resolutions of the public meeting and the opinions of the Visitors (Enclosures Nand B)

14 That the Committee are given to understand that Mr Purnaya, when he was acting as Inspector-General of Education last year, was in favour of the Hindu girls School being taken over by Government and made a branch of the Government girls schools in the Pettah

15 That the Committee request that the Government be pleased on the present auspicious occasion of the Diamond Jubilee of Her Most Gracious Majesty the Queen Empress to direct that the Hindu girl's school which has won such highly honourable opinions as above referred to, be made a Government school and called the Victoria Girls school Chamarajendrapeta, so that it may always serve as a permanent memorial and be a source of developing women's virtues in the female children for a school called after the beloved name of His Highness the late Maharaja

The following letter received from the Inspector General of Education with the reply sent thereto was read —

D O Office of the Inspector General of Education in Mysore

MYSORE 1ST MAY 1897

Dear Sir —I have carefully thought over your application of the 6th April that Government should take over both the Boys and Girls Schools in Chamarajendrapete The people have been sending their girls to the Wesleyan Mission Girls School, although you maintain a secular school for them It seems to me that the whole question may be solved in the following way The Municipality should maintain a Branch school for boys in Chamarajendrapete teaching up to the II Kannada standard under the supervision of the Head-master and Committee of the Municipal English School Such a school will not cost the Municipality more than the 40 Rs now paid by it And you may then give up entirely your girls school As the W M girls school is already established and as the parents of the 78 girls do not object to send them to that school it has now a recognized status, and can claim a grant from Government or the Municipality The Municipality will probably not pay any grant to the girls school, which may be considered a branch of the W M Sidlegutta girls school Government may pay Rs 20 as a monthly grant to the W M Branch girls school in Chamarajendrapete I do not wish to disappoint you in the least but you will see that you have not been supported by the parents of the girls They have paid no subscriptions to enable you to maintain a girls school Under these circumstances you will be quite justified in giving up the girls school Moreover no part of the 40 Rs paid by the Municipality should be spent on the girls school as the 40 Rs are meant solely for the boys school Please let me know your views on the above proposals as early as possible.

Yours very truly

VISITORS' REMARKS

I visited the school this morning and was pleased to see the work of teaching being done in a methodical way There are three masters employed and all the masters have passed the Lower Secondary Examination and are well qualified for the work they have undertaken to do The school has begun well and seems to have a great future before it It deserves well of the Hindu community and of the Government

9—4—96 (Signed) B VENKATAPATAIENGAR

I visited the school this morning with Mr S Subba Rao There are three classes and 37 boys present The ages of the boys range between 12 and 13 years Most of them being of seven years The building secured is a suitable one well ventilated and situated in a good locality But it is in an unfinished condition and furniture is needed the little boys are actually seated on the mud floor This school certainly supplies a much needed want in the Western Extension and the originators of the school deserve every encouragement from the Municipality Government and the public in general The income from school at present in the shape of fees is Rs 8 The house rent is Rs 4 and peon's pay is Rs 3 thus leaving R 1 for Stationary Contingencies etc So the Teachers three of them are actually working without any sort of remuneration They ought to apply at once to the authorities for assistance There are half a dozen boys that are not vaccinated The masters ought to see that those that are not vaccinated are protected at once

I fully agree with the Dr in his remarks

The Western Extension of the City has become a town in itself and for the benefit of the numerous families resident therein the provision of a school for the education of the children of the residents has become a matter of necessity The City Municipal School is too far away to meet the want of the Extensioners It is very pleasing therefore to see that a beginning has been made by a few enterprising young men and a small school started A suitable building has been engaged at a rental of Rs 4 per month

I had the pleasure to see the classes at work this morning 43 boys were present Instruction is imparted in a methodical way as in similar Government Schools I found some Mahomedan boys among the pupils An attempt of this kind deserves the active support and encouragement of the whole community The nucleus of a school

exists and I think Government should be moved to take over the management ot the institution thus started purely in a spirit of self help

I visited the school this afternoon and was agreeably surprised to see about 40 boys in all receiving instruction This is a good beginning for a newly started school and shews the want that must have existed for an institution of this kind in this new quarter of the city There are at present three classes and in the highest of them the boys are seated on benches and in the other two classes the boys are actually seated on the mud floor for want of furniture Educational apparatus such as wall maps etc, is also very much needed The income derived from fees is just sufficient to meet the rent for the school building and the peon s pay and leaves actually nothing for the masters The school therefore deserves well the support of the gentlemen residing in the Western Extension and those interested in education

The remarks of the Deputy Inspector of Schools are very encouraging and I hope the school ere long will become one of the recognised educational institutions for imparting primary instruction to boys in the City of Bangalore

I had the pleasure of visiting this school this morning I endorse all that has been said about it by those who have visited it before me That the Western Extension is growing in importance will have been noticed by all who have watched its progress during the last two year In a place like this a primary school such as the one I have just visited will be felt to be a necessity in the near future and I doubt not that gentlemen interested in the cause of education will afford the help that it deserves until such time as Government are pleased to take the management of it into their own hands

I visited the school in company with Mr Puttanna Chetty The number of pupils already brought on the rolls proves that it is at once established and promising The undertaking no doubt supplies a great want and is thus deserving of every encouragemen.. A good beginning has been made most opportunely and until Government aid which it well merits is secured in the near future, the success of the school must depend upon the charitable disposition of such gentlemen as are interested in the cause of education

As regards furniture, the want of a dozen benches and few tables is now much felt

Two boys sang a song very sweetly I wish the masters and the pupils every success in their respective endeavours

I visited the school this morning at the request of S Subba Rao Advocate and was surpri ed to find that so many as 40 boys and girls were receiving instruction in the school so recently started The school furniture seems to be very poorly To secure better furni ture I subscribe Rs 15 with great pleasure

I visited this School this evening and examined all the classes I am very much satisfied with the work done by the teachers engaged in the work The attendance is very satisfactory The number on the roll in the Boys School Department is 82 and the number present is 69 and the number on the roll in the Girls School Department is 88 and the number present is 73 The teachers must have strived very hard to have such a large number (very nearly 200) in so short a time In my opinion the school deserves every encouragement

I paid a visit to the school on 18th July and examined three classes in reading Writing and Arithmetic The boys and girls acquitted themselves in a creditable manner It is noteworthy that although the boy school was opened on 1 March 1896 and the girls school in May the number of boys and girls on the day of my visit was 81 and 91 respectively This is proof that the school supplies an actual want and that the teachers are efficient and painstaking Mr Salagram Subba Rao who has been the life and soul of the school has been using his best endeavours to make it a permanant institution He has proved himself a true patriot and worthy citizen and I respect him for his disinterested labor in the cause of Education But when I consider the strength of the school the population of the new suburb and its distance from the Municipal Boys School and Government Girls Schools which are situated in the heart of the Pettah it appears to me that Mr Subba Rao s School may be made more Efficient and useful if Government can take over its management

In obedience to the instructions of the Inspector General of Education I again visited the school this *morning* and examined the boys in their studies This is at present a mixed school for boys and girls There are 96 boys and 100 girls enrolled and 80 of the former and 87 of the latter were present at the time of my visit The classification is good and the teaching is effective and efficient The studies prescribed for Government schools are adopted The Highest Standard taught in the boys school is II and in the girls school I The earnest devotion of the masters to the onerous work they have to do and the responsibility they themselves have thrown on their shoulders are praiseworthy They freely and unreservedly mingle with the students sympathise with them understand their needs and advance knowledge Mr Narasimhayya an assistant master of the Municipal Kannada school has made himself responsible for the correct method of teaching adopted in the school

The monthly income of the school is Rs 20 and is derived from fe and subscriptions The house rent, the pay of the male and female servants, and the stationery are hardly covered by this amount The masters have been getting no remuneration, and are self-sacrificing The school meets a real want and is worthy of being patronised by the Government

Opinion of Mr V N Narasimha Iyengar, Deputy Commissioner and District Magistrate Bangalore as expre sed in his letter No 581/E1, dated 16th September 1896 to the address of the Inspector General of Eduction in Mysore

Sir,

I beg leave to solicit your early and favourable consideration of the following —

2 The suburb of Chamaragpete also called the Western Extension has sprung into existence within the last 7 or 8 years and has with marvellous vitality developed into a town of no mean proportions A large number of respectable families who were living in the more conjested quarters of the City proper have removed into new houses built by themselves or others in the Extension and are naturally anxious to secure the same facilities of education for their children as were available in the old place There is however a wide open Maidan separating the 2 localities and parents of young children are excusably reluc ant to send them for their schooling into the City schools at all times of the day

3 The establishment of suitable schools for boys and girls in the new quarter has thus become a pressing desideratum Requests were here and there made but time is naturally required for Government schools to be opened

4 Public spirit and self-help were not asleep in the meantime Among the residents of the Western Extension are Messrs Saligram Subba Rao Advocate and Narasimhayya Assistant Master Municipal Kanada School They have established by their own spontaneous endeavours a boys school and a girls chool in a rented house Although started barely 6 months ago and with very humble beginnings their success voices forth the wishes of the people and fully justifies the zeal and enterprize of the managers who labour in the cause *con amore* At their request I visited the schools this morning and was most agreeably surprised to find them so well attended and taught The figures in the appended statement will give you briefly the measure of success so far achieved I found that the parents of the students boys and girls belonging to various classes and communities take the liveliest interest in the well being of the schools and that no difficulty has been felt so far in realizing the fees The teachers do their work gratui tously in the hope of the Governmant stepping in early to foster and keep alive these useful institutions I am assured by competent authorities that they are well qualified for their work both by attainments and character

5 I understand that the Deputy Inspector of Schools has at your instance inspected and reported upon these schools and will therefore refrain from troubling you with further statistics touching their condition

6 There is however a dark side to the picture *viz*, the risk being short lived No local capitalists are forthcoming to support the institutions until such time as the Government may choose to come to their help The ardour of the unpaid teachers may soon cool down or evaporate and in the absence of funds the schools are liable to collapse The want being undoubted, I believe it behoves the Education Department to meet it Here are the necessary schools ready made and the Government have only to espouse and conduct them like any other Government institution of the same kind and standard It would be a great pity to let them fail

7 The managers do not conceal their misgivings in this matter and pray that the schools may be taken over and managed by the Government

8 As one very much interested in the progress of correct education I have ventured to put the foregoing before you and respectfully suggest that the matter may be taken into your early and most favourable consideration

I have *etc*

Deputy Commissioner

It gave me great pleasure to visit these two institutions a boys and a girls school in the new Chamarajpet, which owe their origin to the energy public spirit and untiring perseverance of Mr Saligram Subba Rao I examined the classes which had a total attendance of 92 in English in Nitichintamany and Balabodhini and Geography and Arithmetic The performance was very creditable to the boys The progress made within the short time the school has been in existence speaks well for the zeal and patience of the masters The girls school had an attendance of 103 girls The classes were examined in Nitichintamany Geography Arithmetic and in Singing The results were equally satisfactory I trust Government will find their way to taking over the management of both these primary classes Both the boys and girls are a real want in Chamarajpet which has already assumed proportions which when starting the Extension we thought it would take years to attain

The boys and girls schools in Chamarajendrapete are making great progress judging from a visit I paid them this morning The schools are deserving of every encouragement and no doubt have a bright future before them But they need help aid and sympathy from all, and I am only sorry that I cannot do as much for the institutions as I should wish to Mr S Subba Rao still takes the keenest interest in the welfare and advancement of the youth in Chamarajendrapete and he deserves every credit for this self imposed task

I had the pleasure of being present this morning when Mr Leonard examined the various classes in reading writing and arithmetic As noted by the several gentlemen who have recorded their remarks above the progress made by both boys and girls in so short a time, is remarkable and speaks volumes for the zealous work done by the teachers as well as for the unflagging interest displayed in this good cause by the public spirited promoter Mr Saligram Subba Rao who has thus provided for a long-felt want of this rising suburb It is high time that these schools were taken over and managed by Government

Adverting to Government Proceedings No 200-2 Ed 10 dated 6th July 1897 I have the honor to state that the question of making the Anglo Vernacular Boys School at Chamarajendrapete a branch of the City Municipal English School was referred by the Board for the opinion of the City Municipal Schools Committee who are not in favor of the proposal but suggest that the School may be taken over by the Municipality and

maintained as an additional Anglo-Vernacular School The recommendation of the City Municipal Schools' Committee was adopted by the Board at an ordinary meeting held on Thursday the 23rd Instant, the Commissioners being of opinion that the direction of the School should be left in the hands of the City Municipal Schools Committee The scale of the proposed establishment is noted on the margin It involves an extra expenditure of ~~Rs~~ 18/- per mensem or ~~Rs~~ 216/ per annum over the provision of ~~Rs~~ 480 already made

Sir

With reference to your letter No 149 of 31st July '97 re the new Chamarajendrapete School requesting the opinion of the Committee regarding certain proposals, I have the honor to state that the Committee are of opinion that the proposal to make the School a branch of the City Municipal English School is not feasible, as that would, implay some supervision over it & responsibility for it on the part

of the Head Master City Municipal
Sc English School, and he has in the
-cy Committee's opinion enough to do &
he look after his own School with
A some 900 pupils on the rolls

The Committee think however that the School in question should be taken over by the Municipality and maintained as an additional Anglo-Vernacular School (Primary Standard) and that the scale of pay of the teachers should be more respectable than the one proposed in which three of the teachers ~~are~~ are put down as worth no more than peons

No	Inspector General's Scale	Rs	No	Proposed Scale	Rs
1	Head Master	10	1	Hd Master Rs 15/- increase to	15/-
2	First Assistant	7	2	First Assist Rs 10/-	15/-
3	Second do	7	3	Second do Rs 8/-	12/-
4	Third do	5	4	Third do Rs 8/-	12/-
5	Peon	5	5	Peon Rs 6/-	
6	House rent	8	6	House rent Rs 10/-	
7	Contingencies	1	7	Contingencies Re 1/-	
	Total Rs	43/-		Total Rs	58/-

5-5

Thus would mean Rs 15/ per month to begin with more than that proposed by the Inspector General But it should be noted that the School is not a Vernacular School but an Anglo-Vernacular one and a qualified head teacher for such a School cannot be got for Rs 10/ per mensem

The amount realised in the shape of fees is ~~Rs~~ 19.5.0 monthly at present and it may be reasonably expected that this will rapidly increase if the School is put on a per-manent basis The Committee therefore request the Manneparum to sanction the increased scale proposed above and obtain

the approval of Government for the same

URGENT.

It is recommended by the IG of Edn in his remarks that Govt would be glad to sanction any reasonable additional establishment that

the School may be taken over under Govt management & a scale of establishment costing Rs 28 per month sanctioned in accordance with

The Girls school at Chamrajpett is now a private institution — A grant in aid of Rs 20 was sanctioned on condition of another 20 Rs being contributed by the people interested — This did not satisfy the inhabitants of that suburb & the IGE was therefore asked to take an early opportunity of visiting the school & reporting upon its strength, himself personally. This he has not yet been able to do — The Dy Inspector's remarks show that the strength of the school is 65 — This is a fairly good no for an infant institution. Mr Bhabha's scale (28 Rs a month) does not seem sufficiently liberal but it may be adopted for the present — & the school taken over altogether by Govt

SIR

With reference to your Docket No 82-35/Ed 7 47 97 dated 18th January 1898, I have the honour to inform you that since the receipt of Order No 5732-3/Ed 7 47-96 of 18 November 1897 I have not had occasion to visit Bangalore and that my illness during the last Christmas holidays and the convalescent stage following it have prevented my visiting the Chamarajendrapete Girls' School this month As I am about to proceed on leave I shall not be able to visit the school until the end of next month. The Deputy Inspector however appears to have visited the school on the 19th December 1897 and found 65 girls on the roll distributed as follows I 9, Infant B 16, and Infant

He does not give the average daily attendance, but it may be presumed that scarcely more than half the number on the roll attend daily. Under these circumstances if Government are so pleased the school may be taken over and the following establishment sanctioned for the present

	Rs
Headmaster	10
Assistant	7
Conductress	4
Housereut	6
Contingencies	1
Total Rs	28
